me: e-mail from American Family Association
me: You won't believe what Sears is selling

Sears is content to sell pornography. And, if you are offended, they don't seem to care!

Dear Friend,

We tried. In fact, we tried more than a half-dozen times to reach out to Sears quietly and professionally. Sears' public relations department has refused to return our calls and emails.

Sears is currently offering giant posters of total nud**y on its website. Sears knows they are selling smut. Technology allows Sears to remove and stop selling these posters within minutes, so why won't they?
Caleb: I recall hearing something about this.
Caleb: What kind of nud**y are talking about?
me: the kind with ****** *****
Caleb: Fucking S**rs.
me: see that gamer thing?
Caleb: You bet your a** I did.
me: go look at the onion main page
Caleb: Oh yeah.
Caleb: That publication.
